

To request a Time Extension (TE) or Alternative Diversion Requirement (ADR), please complete and sign this request sheet and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

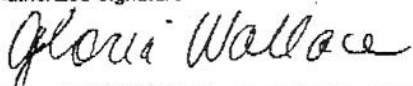

California Integrated Waste Management Board
Office of Local Assistance, (MS 25)
1001 I Street
PO Box 4025
Sacramento CA 95812-4025

JUN 02 2005

General Instructions:

For a Time Extension complete Sections I, II, III-A, IV-A, and V.

For an Alternative Diversion Requirement complete Sections I, II, III-B, IV-B and V.

Section I: Jurisdiction Information and Certification <i>All respondents must complete this section.</i>			
I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:			
Jurisdiction Name City of California City		County Kern	
Authorized Signature 		Title Administrative Assistant	
Type/Print Name of Person Signing Gloria Wallace	Date May 26, 2005	Phone (760) 373-7186	
Person Completing This Form (please print or type) Same		Title	
Phone ()	E-mail Address pubwork@ccis.com	Fax (760) 373-7857	
Mailing Address 21000 Hacienda Bl.	City Calif. City	State Calif.	ZIP Code 93505

Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ Time Extension Request

Specific years requested 12-31-05

Is this a second request? ☒ No ☐ Yes Specific years requested
(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).

Specific ADR requested %, for the years

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2008. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2008.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

Delays in negotiations between the City and the private prison (population approximately 2,635 due to City personnel changes and difficulties in determining the reason for, and a solution to the City's large increase in disposal. When the prison began operation, the City's disposal increased and the diversion rate dropped, however it was not clear what sector of the City the additional disposal was being generated. The City worked with the prison and determined the increase is directly resulting from the increased population at the prison and its generation of wet waste. The City has been working with the prison to evaluate alternative disposal options and is looking to increase its sludge diversion program as a way target and direct the "wet waste" from the prison. The prison needs formal notice that the City will allow them to put the wet food waste into the sewer system for the life of the prison, without levying a fee at a later date. As a result, the wet material will be dried as sludge and the City will increase its sludge diversion.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City is requesting an extension to December, 2005 because it will take time to negotiate the issues related to the City allowing the prison to dispose of food waste down the sewer system over the remaining life of the prison. It will also take time for the prison to secure approval from prison headquarters, to purchase, and install the needed equipment. It will take time for the CIWMB's disposal database and diversion rate calculator to reflect the diversion contribution of the diversion of sludge.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The entire City goes through the Benz MRF. Business waste program: This program is operated by the City's franchised hauler, Benz. Benz contacts and targets all businesses in the city and provides. Program includes businesses using more durable supplies (toner cartridges, tableware) as well as double sided documents, central information points, e-mails, and reuse of single sided paper as scratch pads. Procurement program: Program includes centralized, bulk purchasing of recycled content paper products, toner cartridges, and procurement of products in recyclable packaging. Purchasing policy covers golf courses, schools, city parks dept, Parks and Rec. dept, city sewer and water offices. Program is on an informal basis, but is enforced. Construction & Demolition program: The City recycles asphalt and C&D at the city yard. Asphalt and C&D are recycled at the huge, Benz buy back facility in California City. C&D is accepted with no tipping fees at the Benz facility and the city yard. The materials listed above are used along with 120 tons of Tehachapi's asphalt to pave 49 miles of roads in California City. Granite Construction company also participated in the "49 miles of good road" project. Plans are in the works to extend the project into San Bernardino County with the help of Cal Trans. The third phase of the "Desert Jade" construction of affordable housing project is continuing (Oct. 2001). The Four Star Construction company is the main contractor, all materials are recycled. Residential curbside: Program accepts cardboard, newspaper, phone books, aluminum, glass, plastics, white paper, scrap paper, and other recyclable materials. Program is mandatory. Commercial on-site pickup: program is mandatory curbside for all commercial businesses. Program is enforced by the City, new businesses must comply before given water service or a business license. Residential curbside greenwaste collection: this program is encouraged by the City, all waste collected goes to the MRF in Tehachapi for recycling.

- 4. Provide any additional relevant information that supports the request.**

Section IIIA - Time Extension
City of California City
May 26, 2005

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE, continued:

Residential Self Haul Green waste:

Residents can drop off Green waste free at Benz in California City. Materials are shredded and used as mulch on City properties or given away free to residents. Wood limbs, tree trunks and lumber that are too big to chip are given away to residents for firewood.

Commercial On-Site Green waste Pick-Up:

Program includes mandatory commercial curbside collection of Green waste by the franchised hauler, Benz. Program is enforced by Benz and the City, compliance must be met before water service can begin or before a business license is issued.

School Composting Program:

Program includes schools composting on site as dictated by an agreement between the school and the City. The students learn the benefits of composting and use the compost on school vegetable gardens.

Government Composting Program:

A 3500 bed prison are composting yard and Green waste, the compost is used for the prison vegetable gardens.

Wood Waste:

Program gets feed stock from the mandatory commercial and residential curbside pick-up of Green waste and drop off of commercial and residential Green waste from landscapers contracting with Benz to drop off Green waste, also C & D woodwaste. The material is processed into mulch to be given away or given to residents for firewood.

We have been successful in convincing the Prison to stop compacting and disposing their recyclable materials along with the waste, they now recycle those materials through Pearson Recycling. The tonnage is sent to CIWMB. The Prison is also composting all its greenwaste (see description on page 9. Government Composting Program). The prison has committed to obtaining a "Muffin Monster" along with a compacter, they are waiting on financing from their corporate office in Tennessee.

Nikki Mizwinski has been very instrumental in the negotiations with the prison, she has been a great help.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.

Residential %		54	Non-residential %		46
PROGRAM TYPE Please use the Board's Program Types. The Program Glossary is online at: www.ciwmb.ca.gov/LGCentral/PARIS/Codes/Reduce.htm	NEW or EXPAND	DESCRIPTION OF PROGRAM	FUNDING SOURCE	DATE FULLY COMPLETED	ESTIMATED PERCENT DIVERSION
4100-SP-OTH Sludge	New	Other special waste. Work with the prison to install a mechanical system to allow wet food waste to be disposed in the City's sewer system. This will result in an increase in the generation of sludge from the City's sewer system. The increased amount of sludge will be diverted by drying and land spreading on City leased land.	Prison	12-31-05	12%
Total Estimated Diversion Percent From New and/or Expanded Programs					12%
Current Diversion Rate Percent From Latest Annual Report					38%
Total Planned Diversion Percent Estimated					50%

PROGRAMS SUPPORTING DIVERSION ACTIVITIES

PROGRAM TYPE	NEW or EXPANDED	DESCRIPTION OF PROGRAM	DATE FULLY COMPLETED
5010-ED-PRN Print Education	Expand	The City/hauler will continue its school, residential, and commercial customer education program targeting all recycling programs. Specifically, brochures will be developed and circulated to all customers. The brochures will describe the services and provide program administrator contact information.	12-31-05

5020-ED-OUT Outreach	Expand	The City/hauler will continue to perform public outreach activities within the community, such as presentations and direct contact to schools, businesses, and residents.	12-31-05
